

MAYA DIAZ HUIZAR

+1(415) 806-7925 ◊ Philadelphia, PA

huizar@seas.upenn.edu

SKILLS

Programming Languages/Frameworks: Java, C, C++, Python, JavaScript, R, CUDA, WebGPU

Technologies: GPU Programming, ISAs, VLSI, SPICE

Soft Skills: Teaching, Communication, Project Management, Leading Cross-Functional Teams

EDUCATION

University of Pennsylvania, Philadelphia, PA

Expected May 2026

Accelerated Master's Program

Bachelor of Science in Engineering in Computer Engineering and Mathematics: (Cumulative GPA: 3.31)

Master of Science in Engineering in Computer and Information Science

Relevant Coursework:

- **Computer Science:** Operating Systems, Compilers, Machine Learning, GPU Programming
- **Computer Engineering:** Computer Organization and Design, Embedded Systems

EXPERIENCE

Teaching Assistant, Computer Architecture (Aug 2024 - present) & Operating Systems (Dec 2024 - present)

University of Pennsylvania

Philadelphia, PA

- Conducted weekly office hours and recitations to support student learning, groups of 10-20.
- Assisted in creating homeworks, exams, and project specifications, wrote autograders and test cases.

Course Design Assistant, GPU Programming for Machine Learning

Oct 2024 - present

University of Pennsylvania

Philadelphia, PA

- Assisted in designing course curriculum, and developing assignments.

Intern

Jun 2019 - Aug 2022

Breakthrough San Francisco

San Francisco, CA

- Taught computer science and mathematics to middle school students, groups of 10-20.
- Communicated technical details to non-technical audience, assisted teachers and mentored high school students.

PROJECTS

WebGPU Path Tracer + NPR Stylizer + Cloth Simulation

Fall 2024

Developed a WebGPU-based path tracer with non-photorealistic rendering and cloth simulation using WGSL and TypeScript. Inspired by recent SIGGRAPH research; integrated BVH acceleration and scene loading. Live demo: [GitHub](#).

PennOS

Spring 2023

Developed a Unix-like operating system with priority scheduling, filesystem, and shell. Wrote extensive documentation, worked collaboratively, continuously integrated with filesystem team.

EXTRACURRICULAR ACTIVITIES & LEADERSHIP

Penn Aerospace Club (Airbrakes Team)

Sep 2022 - Sep 2023

- Developed flight control systems using C, ran simulations of systems to ensure robustness
- Worked closely with structural engineers for continuous integration, wrote documentation.

University of Pennsylvania oSTEM (Treasurer)

Sep 2023 - Present

- Managed budget of \$14,000+ for events, coordinated events between 4+ teams.
